

# Super S® All Season Windshield Washer Fluid

**Super S® All Season Windshield Washer Fluid** is a premium, ready to use washer fluid that applies a technologically advanced invisible film on glass surfaces which promotes rapid beading for greater year-round visibility. This advanced formula has excellent streak-free cleaning power to remove tough road films such as road grime, bug splatter, salt, mud, soil, and grease.

**Super S® All Season Windshield Washer Fluid** provides an all year solution which eliminates the need for seasonal change outs. **Super S® All Season** contains an alcohol that cuts through ice and snow while also acting as a co-solvent for cleaning. The rapid evaporation rate of methanol promotes fast, streak-free drying for improved visibility.

Most windshield washer fluids which promote rapid water roll-off leave behind films after drying which can impair visibility and actually attract dirt and grime build-up. **Super S® All Season** does not include polymeric additives that form thick films to achieve water sheeting. The all-new thin film technology found in 365 was developed after many hours of both laboratory and field trials to ensure a long-lasting, streak-free appearance which will not wash away under normal rinsing. These long-lasting effects make **Super S® All Seasons Windshield Washer Fluid** more economical than competing brands needing less applications to achieve the same performance level.

**Super S® All Season Windshield Washer Fluid** is the result of many hours of laboratory and field trials to find the perfect balance between cleaning power and rapid water beading. Surfactants are employed to promote water beading, but if care isn't taken in selecting or if used at too high of a concentration, surfactants may also promote sudding during dispensing leaving behind opaque, white streaking which can severely limit visibility. As seen here, 365 Windshield Washer Fluid promotes superior beading over leading competitors. The surfactant used in **Super S® All Season Windshield Washer Fluid** forms a tighter micelle around water droplets encapsulating more water per volume providing a clearer field of vision.

## FEATURES/ BENEFITS

- ✓ Protects to 0°F providing a year-round solution in most climates
- ✓ Powerful cleaning action easily removes greasy road grime, bug splatter, mud, and tar fast
- ✓ Thin-film technology repels rain, sleet, snow, and dirt from accumulating on surfaces
- ✓ Provides clear, streak-free performance
- ✓ Ready-to-use formula for added convenience

## DIRECTIONS FOR USE

- Fill windshield washer reservoir with Super S® All Season Windshield Washer Fluid without diluting product
- **DO NOT** overfill

## SPECIAL WARNINGS

**WARNING:** This product can expose you to chemicals which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## TYPICAL CHARACTERISTICS

Super S® All Season WWF	
Color	Orange
Active Ingredient	Methanol
% Active	24
Freeze Point, °F	0°
Foam Test	Pass
