

## Super S® Concentrated Windshield Washer Fluid

Super S® Concentrated Windshield Washer Fluid is a concentrated alcoholic solution which upon dilution provides powerful cleaning ability and freeze protection. Windshield washer fluid concentrates provide the user the flexibility to dilute with water to the level of freeze protection or detergency desired.

The powerful alcoholic solvent easily removes dirt, grime, and bug splatter and then quickly evaporates leaving a clean, streak-free surface. It is also capable of providing freeze protection down to -158°F if left undiluted.

The small package size is convenient for complying with local and federal transportation emission requirements and provides less of an impact to the environment. With tighter limits in some areas restricting VOC (Volatile Organic Compounds) in consumer products, the concentrated solution allows the user to dilute to comply with local regulations in all areas.

### FEATURES/BENEFITS

- Quickly cleans dirt, grime, and bug splatter from glass surfaces
- Alcoholic solution provides excellent freeze protection ranging from +32° to -158°F. upon dilution with clean water
- Streak-free formula
- Small package size to comply with all local and Federal transportation regulations
- Easily diluted with addition of clean water
- Concentrate allows for compliance of all VOC and transportation emission requirements

### FREEZE PROTECTION

Dilute Super S® Concentrated Windshield Washer Fluid by mixing at the ratios in the chart below with clean water to reach the desired freeze protection or VOC content:

Freeze Protection, °F	Parts Water	Parts Concentrate	% VOC
-158	0	1	83
-20	1	1	37%
0	2	1	24%
+21	5	1	10%
